RIVERSIDE, CALIFORNIA 92502

19 December 1972

Dear Josh,

It was wonderful to see you and your family. Come back whenever you ~~can~~ can: 11522 Tulane Ave is the gateway to the southern deserts.

Betty reminded me that Arthur Pollister was more interested in DNA in the '40's than anyone else in Columbia. You should communicate with him.

Kumamoto, here at UCR and on the State Committee to screen textbooks, says he believes we won but the matter about creation is not over yet. The Board has set up a committee to do some editing and the committee may be slanted towards the views of the Fundamentalists. One member of the committee is Richard Bube of Stanford. He should be able to keep you informed and possibly you could have important influences ~~thru~~ thru him.

Sincerely,

A handwritten signature in black ink, consisting of a stylized 'J' followed by a horizontal line.

*adi.*
